Response to Arguments

Applicant's arguments filed 8/11/2005 have been fully considered but they are not persuasive. Applicant's argument that the second elongated opening of Calabro cannot be parallel to the profile section is not persuasive. Calabro clearly in his discussion of figure 10 embodiment that the second opening can be slotted for horizontal adjustments of the U-bolts and antenna support meaning that the slot extends horizontally and consequently is parallel to the profile section which is the horizontal platform 45 as shown in Calabro's figure 2.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
